

Hi Jane,

Thanks for reaching out and letting us know about your situation.

I understand that you were asking for an extension regarding your Codepath class deadline (Cybersecurity 101) due to your MacBook issues.

Please note that we only give 48-hours deadline extensions and if students still need more time, then we can consult our Programs Team for another extension.

And upon checking with our Programs Team, we will be able to approve your request as you are still within our 1-week maximum deadline.

However, please be advised that we cannot give you multiple exemptions in the future, should this happen, I'm afraid that we might withdraw your from the Program due to our Policy.

Hopefully, I was able to assist you and should you have further questions, please don't hesitate to reach us back.

All the best,

Trisha
